Get the CIA off campus

On Wednesday at 2 p.m. there will be a rally in Dunn Meadow sponsored by the Committee Against Campus Complicity With the CIA. The purpose of the rally is to get I.U. to make public all university files of past CIA operations on campus and to keep the CIA recruiters off campus who are scheduled to be here Mar. 10-12.

In the light of recent revelations about the illegal domestic spying activities of the CIA and in light of the fact that I.U. sent two delegates to a CIA conference in Washington, D.C., last October to aid the intelligence agency in their minority recruitment drive without informing the press or the student body of their intentions to do so, the Daily Student urges all members of the student body to attend the rally.

It may be argued that an intelligence agency is a necessary evil, but when they have been caught with their fingers in the cookie jar, they should not receive the support of this university. It is unfortunate that the I.U. administration has already been cooperating with the CIA behind the student body's back. One may wonder if there are CIA university files on certain 'radical' students like the FBI files kept in the late sixties.

If you do not believe that I.U. should cooperate with the CIA and their recruiting program, attend the rally to get the CIA off campus.
